

[INTEGRATED EXTENDABLE LOAD FLOOR ASSEMBLY FOR VEHICLES]

Abstract of Disclosure

20An integrated extendable load floor assembly is provided for a vehicle having a rear end with a floor and sides extending upwardly and along the floor to form a cargo area and a decklid for closing an upper portion of the cargo area. The integrated extendable load floor assembly includes a plurality of rails adapted to be disposed upon the sides above the floor of the rear end. The integrated drawer assembly also includes a load floor operatively cooperating with the rails for sliding movement therealong and to close a longitudinal end of the cargo area.
